STOMACHS ON STILTS.

The man who puts on stilts does not increase his actual stature. He only feels taller. Stimulants are the stilts of the stomach. They make a man feel better for the time being, but he feels a great deal worse for them afterward.

The need of the man whose stomach is "weak" is not stimulation but strength. Dr. Pierce's Golden Medical Discovery perfectly answers that need. It contains no alcohol or whisky. It cures the weak, foul stomach with its attendant bad smelling breath, coated tongue, bad taste, poor appetite and kindred symptoms.

"In the year 1899 I had an attack of indigestion and got so bad that my home doctor said he could not do me any good," writes Mr. G. Trent, of Gordonville, Texas. "I wrote to you and you advised me to use Dr. Pierce's Golden Medical Discovery, so I bought six bottles, and when I commenced using it I was so weak could hardly walk about the house. By the time I had used one bottle my stomach and bowels commenced to heal. There were strips of the lining of my stomach or bowels (I don't know which) as large as a man's two fingers passed and I had a good deal of misery in my stomach and bowels, and also in the rectum especially. I could not eat anything without having much distress afterward, but by the time I had taken eight bottles of the 'Golden Medical Discovery' I was sound and well, and could eat anything I pleased without suffering in the least. Could also do as much work in a day as I ever could. I have not suffered from the trouble since, and it was four years ago that I was so sick."

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Prepared Herself for Death.

Lieut. Louis B. Chandler, U. S. A. went to Omaha from Fort Niobrara Tuesday in response to a message received Saturday telling him of the suicide of the wife from whom he was seeking a decree of divorce, and with her dead body he left Omaha late Tuesday night for Baltimore, where the remains will be interred.

Lieutenant Chandler is accompanied on the journey to Baltimore by his little four-year-old stepson, who has not yet been told of the tragic death of his mother.

When he entered the room at the morgue, where her dead body lay, and the covering was lifted from the quiet face, he stood with folded arms and gazed upon it long and earnestly, and then with the words, "this is the end of it all," turned sadly away.

Much surprise has been expressed by those who have seen the face of the dead woman that it should have retained in death so much of its natural beauty. It came to light yesterday that Mrs. Chandler had made special preparations on the day she took her own life to make herself look as attractive as possible when her husband should look upon her face for the last time.

She went to a massage and hair-dressing parlor a few hours before her death and was very exacting in directing the details of her toilet. She first had her hair shampooed and dressed. She insisted that her hair be recurled and the coiffure altered a half-dozen times before it met with her critical approval. After her hair was prettily dressed she had her face carefully massaged and her nails manicured. All the while she appeared very nervous.

"I am all unstrung," she said. "I have been ill, you know, but that's not the trouble, it's a more serious matter. You would be nervous if you had to go through what I shall have to. But do your work the best you can; I wish to look as well as possible when it's all over."

Suspected of Murder.

George Brooks, the man arrested Tuesday in York county, Va., on suspicion of being Benj. F. Pettes, the coachman believed to be implicated in the murder of Mrs. Hannah Rose, at Montclair, N. J., was yesterday identified by Rev. J. T. Green, pastor of Chestnut Avenue Methodist Church, in Newport News, as the man who became interested in a protracted meeting and who joined his church February 1. The man told a number of conflicting stories in relation to his past, and disappeared a day or two after joining the church. Brooks admits that he is a cab driver, and says that he formerly lived in Camden, N. J. He also admits having a number of aliases, and says he served an enlistment in the navy under the name of Bell. Montclair officers are expected to arrive today.

Chief of Police Gallagher left Montclair, N. J., yesterday in company with Detective Hummel, of the office of the prosecutor for Essex county, Va. The purpose of the two officers is to see if they can identify the prisoner held at Hampton as the coachman of Mrs. Hannah Ross, the woman who was found burned to death in the ruins of her home at Montclair, February 22. Since that time the police have been hard at work trying to locate the missing coachman. A lot of valuable jewelry belonging to Mrs. Ross is missing.

Pettis had been employed but four days before the fire at the Ross home. It is said that he signed a will made by Mrs. Ross a day or two after she engaged him, but that he did not attach his real name to it.

Urges Negro Migration.

Rev. Dr. Dean Richmond Babbitt, rector of the Church of the Epiphany, of Brooklyn, N. Y., and president of the commission on the race problem, in an address in Washington last night advocated the voluntary exodus from the South of negroes. He urged that through industrial combinations, co-operative societies and state immigrant boards, created for the purpose, they should seek settlements in the northern, middle and western states, so that the problem of the negro race should not be any longer a southern one. If the negro were distributed among the northern and western states, his political rights, he said, not only would be protected, but through a balance of power between the parties he would obtain political and industrial recognition, and there would be a lessening of race prejudice, now impossible for him in the congested South. What has been described as the "white peril" to the negro in the South by the incoming of the Italians, Austrians and other foreigners, Dr. Babbitt said, is, in his judgment, a step toward the negro's political and industrial salvation, by driving him to better fields and larger opportunities. He advocated the creation of a commission by Congress to deal with the facts from every point of view.

Should colored people act on the advice given above, they would be compelled to work and be provident in order to compete with others. They have the same chance in the South if they will avail themselves of their opportunities.

Danderine

Grew This Hair

AND WE CAN

PROVE IT.

Latest Photo of FRANCES MARIE KNOWLTON, Age Four Years. 980 Garfield Boulevard, Chicago.

Little Frances Marie Knowlton is the daughter of Dr. E. W. Knowlton, the discoverer of this great hair-growing remedy, and her beautiful hair was grown wholly by the use of this great tonic.

This little girl had no more hair than the average child before using Danderine, while now she has the longest and most beautiful head of golden hair ever possessed by a child of her age in the world.

Danderine makes the scalp healthy and fertile and keeps it so. It is the greatest scalp fertilizer and therefore the greatest hair-producing remedy ever discovered. It is a natural food and a wholesome medicine for both hair and scalp. Even a 25c. bottle of it will put more genuine life in your hair than a gallon of any other hair tonic ever made.

NOW at all druggists, in three sizes, **25** cents, **50** cents and **$1.00** per bottle.

FREE. To show how quickly **Danderine** acts, we will send a large sample free by return mail to any one who sends this advertisement to the **Knowlton Danderine Co., Chicago,** with name and address and 10 cents in silver or stamps to pay postage.

Finding health is like finding money—so think those who are sick. When you have a cough, cold, sore throat or chest irritation, better act promply like W. C. Barber, of Sandy Level, Va. He says: "I had a terrible chest trouble, caused by smoke and coal dust on my lungs; but, after finding no relief in other remedies, I was cured by Dr. King's New Discovery for Consumption, Coughs and Colds." Greatest sale of any cough or lung medicine on earth. At E. S. Leadbeater & Son's drug store; 50c and $1.00; guaranteed. Trial bottle free.

Inflammatory Rheumatism Cured.

William Shaffer, a brakeman of Dennison, Ohio, was confined to his bed for several weeks with inflammatory rheumatism. "I used many remedies," he says. "Finally I sent to McCaw's drug store for a bottle of Chamberlain's Pain Balm, at which time I was unable to use hand or foot, and in one week's time was able to go to work as happy as a clam." For sale by Gibson & Timberman and W. F. Creighton & Co.

Special inducements for the country trade

THE ANNUAL MEETING of the stockholders of the JACKSON-PHILLIPS BRICK COMPANY will be held at noon TUESDAY, the 21st day of March, 1905, at the Hotel Fleischmann, on south Royal street, near King street, in the city of Alexandria, Virginia, for the purpose of electing officers for the ensuing year and for any other business that may come before the meeting.

MALCOLM HUFTY, Secretary. mar7 td

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

THURSDAY EVENING, MAR. 9, 1905

THE RE-WRITTEN Dominican treaty will be reported to the Senate today from the committee on foreign relations with the prospect that before it is ratified it will undergo, by amendment in the Senate, another revision almost as complete as the one it has undergone in committee, by which time its author will not recognize his own handiwork. There is a general determination among Senators on both sides of the chamber to make the President and the State Department understand how vigorously they resent the course of the administration in the whole Santo Domingo affair and that the Senate means to be firm from the start on all similar deals hereafter. This resentment will be shown by recasting the treaty in such a way that it will, when finally ratified, bear only the slightest resemblance in form to the document sent to the Senate from the State Department, while its provisions will confine the functions of the executive in carrying it into effect within the narrowest possible limits. More than this, the document evolved by the Senate will make it entirely plain that this government will not permit its course in dealing with Santo Domingo to be used hereafter as a precedent by future administrations or by foreign governments in cases arising from the financial complications of other Central or South American republics. It was openly predicted in committee that the present procedure was a forerunner of the administration's intended course towards Venezuela. That the principals of the Monroe doctrine are in any way involved in the Santo Domingo affair will also be expressedly denied in the treaty.

DISPATCHES sent out from Washington again state that President Roosevelt regards eight years as long enough for any man holding a federal appointive position to draw a salary from the government. There is now hardly a man in the diplomatic or consular service who has served eight years and is to hold on, and it is expected that the President will apply the same rule to practically every presidential appointee now holding a position. This includes departmental positions, postoffices, collectors and high and low places. The President, however, has not failed to state that he has no cast-iron rule in this respect, and, he might have added, in any other. His general rule, however, if applied in Virginia, will leave but few of the present federal officeholders in the places they now occupy.

WHEN President Roosevelt made Vice President Morton, of the Sante Fe Railroad, a member of his Cabinet he was, of course, unaware of the methods of that corporation. It is quite comprehensible that after the discovery of Morton's connection with these methods the President should retain him till the beginning of a new term rather than rudely dismiss him. But, says the Philadephia Record, the appointment of Morton as a member of the new Cabinet is nothing less than public scandal in presence of the fact that as an official of the Santa Fe Railroad he was engaged in lawless practices which the Government has endeavored for years to prevent. And Commissioner Garfield, too!

IT IS STATED that President Roosevelt has tendered the office of United States district attorney for the Northern district of Georgia to former Representative F. C. Tate, of that State. Mr. Tate is a democrat and the office is now held by E. A. Angier, republican. It is said by those who are familiar with the circumstances that the appointment of Mr. Tate is "personal" rather than political. Mr. Tate served in Congress for six terms, and was a member of the committee on naval affairs when President Roosevelt was assistant secretary of the navy and has upheld the President in his big navy policy. Hence this "personal" appointment.

SINCE President Roosevelt pocket vetoed the Washington modified anti-smoke law, the authorities in that city are vigorously enforcing the old law and every day fines are imposed for its violation. As it is simply impossible to conduct manufactories without smoke, it is believed that many such concerns will be driven out of Washington. There are many eligible sites for manufactories in and near Alexandria which can be purchased at low prices and on favorable terms.

THE DELAWARE Senate yesterday passed the bill abolishing the pillory as a punishment for crime. The bill now goes to the House for consideration and should it become a law petty crime in Delaware will increase wonderfully. The fear of the lash is a great deterrent to evildoers.

CHAIRMAN HEMENWAY, of the appropriations committee, predicts a deficit of $18,000,000 in the government revenues for the ensuing year. But what is eighteen millions to a billion dollar country?

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., March 9.

President Roosevelt has ordered a special investigation of the charges made against J. M. Masten, who was chief clerk to the First Assistant Postmaster during Perry Heath's administration. N. W. Baker, who represents the Dey time clock manufacturers, charges that Masten showed favoritism in contracting for the Bundy time clocks now in use.

The executive committee of the American Federation of Labor will meet here on Monday. All matters of moment to the organized labor world will be considered the most important being that of the street railroad men's strike in New York city. It is expected that the street railroad men adopting the tactics of the weavers at Fall River, Mass., will, through their international union, ask the executive committee to authorize agents to go among the union labor people of the country seeking contribution to maintain the strikers during the time they are out. The executive committee does not believe it good policy to assess members of the federation to aid in a big strike movement. Its countenances, however, the unions involved in sending out agents with proper credentials of the federation to solicit funds.

According to information received by Minister Takahira from Tokio, the Japanese expect to take Mukden today. In anticipation of this event, says the dispatch, Field Marshal Marquis Oyama has issued an order strictly prohibiting his troops taking quarter within the walls of that city. He has done this "for the purpose of respecting the sancity of the place whence arose the imperial dymasty of China and to preserve peace and tranquility among the Chinese inhabitants of Mukden." The dispatch further says: "Marquis Oyama reports to Tokio that he has beaten the enemy in every direction; that the Russians began retreating Wednesday morning with the Japanese in vigorous pursuit."

With the tears streaming down his bullet-scarred cheeks, Geronimo, the aged Indian chief, today begged President Roosevelt to "take the ropes from the hands" of his people. Geronimo and his tribe are prisoners of war at Fort Sill Oklahoma, and may not leave without permission of the Secretrry of War. A special permit had to be secured before they could come to the inauguration. "The ropes have been on my hands for many years," pleaded the old Indian at the President's office this afternoon, "and we want to go back to our home in Arizona." "When you lived in Arizona" replied the President, speaking to the interpreter who in turn repeated the President's meaning to Geronimo, "you had a bad heart and killed many of my people. I have appointed Mr. Leupp, the Indian Commissioner' to watch you. I cannot grant the request you make yet awhile. We will have to wait and see how you act." After the interview was over and Geronimo and his fellow chiefs had left the President's office, the old man wanted to go back and "speak again to the father." But Mr. Leupp told him that he could not do so and if he had anything more to say to the President he would have to write it.

The expected dismissal of the present Isthmian Canal Commission of which Admiral Walker is chairman will, it is authoritatively stated, take place within the next week or so. The President will completely reorganize the commission. His plan is to appoint two or three persons of wide experience in the organization and conduct of large business enterprises, who will constitute a sort of board of administration. Under this board will be oppointed three or four first class engineers whose duty will be solely to make the plans for completing the canal. Chief Engineer Wallace will then be given free hand to execute the work. The engineers will be made the board of administration. President Roosevelt will thereby be complying with the provisions of the Spooner Law, of 1902, which says that "the work shall be done through a commission of seven members"

The Senate Committee on Foreign Relations this morning by a strict party vote decided to make a favorable report on the Santo Domingo treaty. The instrument has been very freely amended in committee and added to for the purpose of making it certain that it shall not be used as a precedent for similar action in other places. The report of the Committee was not presented to the Senate this morning because of the announcement of the death of Senator Bate.

Secretary Hay this morning in conversation said: "I shall like, if possible, to set at rest the confused, misleading and harmful reports concerning the negotiation not only of the Santo Domingo protocol now under consideration by the Senate, but also the instrument signed at Santo Domingo City on January 21, which is sometimes referred to as the Dillingham-Sanchez agreement. It has been asserted and persistently repeated that the Department of State had knowledge of the existence of the agreement of January 21 prior to the announcement in the public press that such an instrument had been signed at Santo Domingo city. It has been further asserted that there was an intention and a purpose on the part of the President and the Department of State which looked to the hasty carrying into effect of some important arrangement with the Dominican government, without duly submitting to the Senate for its advice and consent any instrument in the nature of a treaty or protocol. Neither the President nor any of the officials of the Department of State ever had any such intention or purpose. Nothing was known of the agreement of January 21 until it was learned, through the medium of the public press, that such an instrument had been signed in Santo Domingo City. It was never for a moment contemplated that there would not be submitted to the United States Senate at the proper time for its consideration, a protocol or treaty embodying the essential features of the agreement signed on the 21st of January at Santo Domingo City, which agreement was signed at that time for the purpose of meeting the requirements of certain political conditions at Santo Domingo to avert further disorder and bloodshed. The action of our representative in this respect was approved."

It is announced on authority that the President will accept any reasonable amendments to the Santo Domingo treaty that the Senate may make and will endeavor to secure the consent of the Dominican government to the changes.

The War Department has refused to accept the resignation of Capt. George H. Kirkman, of the 25th Infantry, and he will therefore be tried by courtmartial on charges in connection with his alleged elopement with Mrs. Chandler, who afterwards committed suicide.

Rev. J. F. Cordova, the eloping minister, was unfrocked yesterday by the New Jersey Methodist Episcopal Conference at a secret meeting at Atlantic City. Rev. Cordova was charged with the desertion of his wife and family. The vote was unanimous, even the minister who came to defend Cordova voting yea. Cordova's resignation had first been refused.

Anarchy and open defiance of the authorities, according to the London Daily Mail's correspondent at Batoum, is spreading in the western Caucasus. The situation is so serious that an expeditionary force has been mobilized to enter the disaffected districts of Georgia. The Georgians threaten that the first shot will be the signal of a revolution. Leading merchants and foreigners, including the British and American consuls, are threatened with death if they act in opposition to the revolutionary committee.

JAPANESE AGAIN VICTORIOUS.

The Japanese have achieved a great victory before Mukden, and the Russian army is in full retreat northward. Kuropatkin's right has been routed and disorganized, and Kuroki has driven a wedge between General Linevitch's first army and Rennenkampf's corps.

Kuropatkin's chances of escaping the Japanese enveloping movement are slim, and it is reported that his communications have been cut. The Japanese are rapidly extending their turning movement in the direction of Tie Pass to block the Russian retreat.

The Russian War Office, although it has only given out dispatches from Kuropatkin covering operations up to Monday night on the right, denies that he has met with disaster.

The fall of Mukden is expected soon. Before retreating the Russians set fire to great quantities of supplies. The Japanese are pushing the Russians hard on the east.

The Japanese left has beaten the record for rapid Japanese advances. As the entire Russian right was demoralized four days ago, the Japanese took advantage of conditions and pushed ahead. The Japanese seem confident of seizing the railroad north and south of Mukden.

The aggregate losses in the 11 days' fighting since the beginning of the Japanese advance is estimated at 50,000 to 70,000 killed and wounded. The Russians, disheartened, only feebly defend some important positions.

Admiral Rojestvensky's second Pacific squadron is reported to have turned back from Madagascar.

The first four days' fighting has ended as successfully as the Japanese could wish and has resulted in the complete turning of the Russian right and promises the certain defeat of the entire Russian army. It is hard to see how the Russians can possibly hope for any other result. The left Japanese armies have swung north to a point on the main highway five miles north of the Mukden line. The two left armies which are executing the turning movement are now parallel to and four miles westward of the railroad.

The two armies swung around, with Chantan as a pilot, until they reached a position at right angles with the original line, and are now advancing directly east. The Russians made a strong fight at the start, but later their resistance was slight, their men retreating in disorder before the onward rush of the Japanese, who have advanced over 20 miles in four lines, constantly in touch with the Russians.

The Russians had many strong defenses in several lines, but did not defend them as strongly as expected. The soldiers evidently were disheartened by the fall of Port Arthur, and, it is believed, they are almost in open revolt.

A number of strong positions were given up without a show of resistance, and the battlefield shows evidence of hasty retreat, being covered with clothing, heavy felt boots and thousands of whips, thrown away probably because they impeded the Russians' hasty flight. Many rifles and thousands of clips of rifle cartridges were also thrown away, the Russians retiring east and north in confusion. It was evident that all their plans for retreat were disconcerted by the rapid rushes of the Japanese.

The entire Russian right seems altogether disorganized. The reports show the Russian troops are almost in a panic-stricken condition, one army corps opposed to the Japanese extreme left armies retiring rapidly and practically making no attempt to stop the Japanese movement.

The Japanese victory was even greater morally than physically. It is estimated that the Russian losses were over 10,000. The prisoners' statements give evidence of even greater loss. The Japanese loss with these left armies during the four days does not exceed 4,000.

The entire Russian army, it is believed will be surrounded and cut off.

He immediately entered the Confederate service and served as captain and aide de camp on the staff of Gen. John G. Walker during the whole of the great struggle.

The Santo Domingo Treaty.

The Senate, in executive sesion, yesterday evening made public the second message of President Roosevelt on the Santo Domingo treaty. It says that the Dominican interests demand action by the Senate at the earliest practicable moment; that the treaty is at the earnest request of the Dominican republic to afford her relief, and will remove apprehension of foreign aggression in that quarter.

It says that the result will benefit not only Santo Domingo, but also the United States by procuring stability, order and prosperity in the island. The message says the treaty offers the only method for preventing the collection of fraudulent claims and of protecting just claims of foreigners and Americans alike, and urges Santo Domingo's need of the aid of a powerful and friendly nation.

RUSSIANS RETREATING.

Japanese Reported to Have Captured Mukden—Fearful Carnage—Casualties Said to Reach 100,000—Between 7,000 and 8,000 Russian Dead on the Field—Japanese Cut Railroad North of Mukden.

Tokio, March 9.—Messages from the front state that the battle before Mukden has been the bloodiest of the war. Over 8,000 Russian dead lie before General Oku's army alone, it is said, and it is expected that the reports from the other armies will treble this number. The casualties on both sides will probably exceed 100,000. It is believed the Japanese have cut the railway north of Mukden, leaving the only retreat for General Kuropatkin's army by road and the light railway via Fushun.

It is stated that field Marshal Oyama has directed his army not to encamp in large bodies in the vicinity of Mukden, in order to appease native residents and safeguard the historic cradle of the Manchu dynasty.

The people are already celebrating the victory of the Japanese arms before Mukden. During the night the city was gaily decorated with flags. The result of the expected pursuit of the Russian army today is awaited with the most intense anticipation.

Tokio, March 9.—Official confirmation has been given that the Japanese have cut the railway north of Mukden. The pursuit of the Russian army continues.

Berlin, March 9.—The Lokal Anzeiger prints a dispatch to the effect that the Japanese have occupied Mukden.

St. Petersburg, March 9.—Dispatches from the front state that the Russian army on the east is retiring in good order on the center and that the soldiers are destroying their stores as they retire. The fighting has become a rear guard action, the Russians covering their retreat. The Russian losses yesterday on the right flank alone numbered seven thousand.

North of Mukden, the Japanese are reported to be working from a position parallel to the railroad about four versts north of the imperial tombs, and five versts from the railway.

London, March 9.—The latest indications based on war reports from the scene of the battle are that the Japanese circle is tightening about Mukden and the northwest.

The Russian leader is falling back on the fortifications along the Hun river, for the purpose of staying General Kuroki's advance and keeping open the possibility of a retreat to Mukden.

A heavy engagement is proceeding in the neighborhood of the imperial tombs northwest of Mukden. On the north the Japanese are advancing on Ungungun, which is three versts (two miles) from the station at Mukden.

A dispatch to the Reuter Telegram Company from Tokio confirms the cutting of the railway north of Mukden. The dispatch declares that General Kuropatkin's position is so critical that if he succeeds in withdrawing even the bulk of his army, the performance will relieve his masterly retreat from Liao Tung.

St. Petersburg, March, 9.—The Birgevya Viedomosti announces that the Japanese occupied Putiloff Hill, which had been the scene of some of the fiercest fighting of the great battle, last night.

St. Petersburg, March, 9.—A Russian correspondent reports that two Japanese divisions are north of Mukden. The officials here manifest the greatest uneasiness as the indications are that General Kuropatkin is hemmed in by the enemy.

Tokio, March 9.—General Mac Arthur entertained Lieutenant General Terauchi Maskata, Minister of War, and twenty high officers of the army and navy, with their staffs, at dinner at the American legation last night. President Roosevelt, the emperor of Japan, and the American and Japanese armies and navies were toasted.

Captain West, who went to Japan with General Mac Arthur, has been assigned to General Oku's army, and Captain Pershing to Gen. Kuroki's forces Lieut. Matsumote has been detailed by the Japanese government as an aide to General Mac Arthur.

Mukden, March 9.—The fighting yesterday engaged the troops along the entire front. The men who have not slept for many nights are exhausted. The fighting on Tuesday on the Russian right was for the possession of Tatchekiao, eight miles from Mukden, on the Sinmington river and at Youpanshun. At the latter place, the struggle was of the most desperate character, and General Kuropatkin personally directed affairs until the Russians had retreated safely under a rain of shrapnel.

St. Petersburg, March 9.—A dispatch from General Kuropatkin says: "On the right bank of the Hun river the enemy has assumed the offensive towards Mukden from the northwest and the north. The centre and left flank of our armies have fallen back without fighting on the entrenched positions on the right bank of the river Hun. Today the enemy attacked us on the north front, driving a small detachment of outposts from Padiaza. Colonel Zapolsky was killed. The latest attacks of the enemy have been repulsed."

The Chadwick Case.

Cleveland, Ohio, March 9.—This is the fourth day of the Chadwick trial and Mrs. Chadwick and her friends seem confident of her acquittal. They assert that the government has not proved conspiracy. They say that bad bookkeeping and financiering unprofitable to the bank have been proved, but no conspiracy, and it is conspiracy that is charged in the indictment. T. C. Doolittle, expert accountant, was recalled to the stand by the defense this morning. With one of the journals of the Oberlin Bank in his lap Doolittle stated that on November 3, 1903, Mrs. Chadwick had credit to the amount of $15,000, and on November 16, 1903, she was credited with $40,000.

The defense then rested its case and Mr. Sullivan said there was no rebuttal. Judge Wing for the defense moved that Judge Tayler take the case from the jury and his argument was in progress at noon, when court adjourned until 1:30.

Seven Men Killed.

Wilkesbarre, Pa., March 9.—Seven men were killed in the Clear Spring colliery of the Clear Spring Coal Company at noon today. The accident was caused by the breaking of a hoisting cable. The car and the men fell to the bottom, 300 feet, and all were instantly killed. The victims were all miners. The accident caused considerable excitement and a large crowd collected at the mouth of the mine.

Traffic Conditions Improved.

New York, March 9.—Traffic conditions on the subway and elevated lines of the Interborough Rapid Transit Company showed a marked improvement over the conditions which obtained yesterday and the officials of the company confidently assert this morning that the backbone of the strike of the five thousand employes is broken. Several of the trains in the subway were manned today by strikers, who have returned to work. The company hopes to have the roads running on normal schedule by Saturday. The subway is moving both local and express trains, and is rapidly approaching the usual running schedule. One hundred and fifty experienced strike breakers arrived this morning from Boston.

It was said this morning at the company's office that while many men who had gone on strike had returned, it was the purpose of the company to carefully examine the records of those who applied for reinstatement. General Manager Frank Hedley says that only such men as are needed to operate the trains will be re-employed, and not one of the strike breakers, who shows ability, will be dismissed to make room for those who went on strike.

Efforts were made today to induce the strike breakers to quit their post, but without much success. The police were stationed on all trains and stations and quickly quelled any disorder or violence. The strike leaders will do their utmost today to induce the three hundred stationary firemen in the power houses, which supply the electricity to the subway, and elevated lines, to go out on a sympathetic strike. They have already appealed to the firemen to go out, but their appeals has not been listened to. Only a few of the firemen are union men.

Representatives of the strikers will apply to the Supreme Court today for an injunction to compel the company to put back the emergency brakes which were taken out of the cars on Monday. These brakes were taken out because information reached the company to the effect that strikers would interfere with the operation of trains by pulling these brakes.

Fear that the surface men will go out on strike has passed, as the efforts made to get them to go out have failed.

New York, March 9.—While the employes of the Interborough Rapid Transit Company are demanding higher wages and shorter hours, the strike on the system is virtually against the continuance in power of Frank Hedley, the general manager of the road. Hedley once broke up the union on the elevated road in Chicago, and when he was brought here, two years ago, a fight was waged against him and kept up by the union. With five thousands men against him, Hedley says he can win the strike. Hedley rose from the ranks of labor by sheer hard work and industry, and his career is interesting. When but 20 years old Hedley came from his home in England to this country to seek for work. That was in 1881. He obtained work in the Erie Railroad shops at $2.40 a day, and remained there for five years, learning all the details of the work. Later he went to work for the New York Central railroad and after a year was employed by the Manhattan road. Hedley was then getting three dollars a day. He became master mechanic of the Kings county elevated, and while working for the road attracted the attention of Chas. T. Yerkes, who took him to Chicago, where he was made Superintendent of the Lake street elevated. At nights he studied electricity and patented a trolley scraper and a device to protect third rails. He soon became General Superintendent of the Amalgamated Chicago roads, and when August Belmont cast about for a general manager, for the Interborough, he selected Frank Hedley. His salary is $25,000 a year. He has much to do with the preparation of the subway and its operation of moving trains.

Service on the subway was virtually normal this afternoon, and the company's officials announced that the road was fully manned. Work of manning the elevated trains is progressing rapidly, and the company expresses the opinion that the overhead lines will be running on their normal schedules by tonight, or tomorrow. They reported that several strikers had returned to work during the day. Strikers headquarters was gloomy this afternoon over the outlook. Efforts to get the firemen at the power houses to go out have so far failed.

Funeral of the Late R. C. Luther.

Pottsville, Pa., March 9.—Thousands of mining men from all parts of the east and south, where anthracite and bituminous mining is conducted, this afternoon attended the funeral of the late Roland C. Luther, second vice president of the Philadelphia and Reading Coal and Iron Company, from the family residence on Mahanoy street. As a tribute of respect to the memory of the deceased, every colliery, shop and department of the Reading Company was closed for ten minutes from 2:30 o'clock, the time set for the funeral. Services were conducted according to the rites of the Episcopal Church, Rev. James F. Powers, D. D., and Rev. Howard W. Diller, both of Trinity Episcopal Church, officiating. After the service interment was made at the Baber Cemetery beside the parents of the deceased.

Not Mrs. Ross's Murderer.

Newport News, Va., March 9.—Chief of Police Gallaher, of Montclair, N. J., arrived here today to identify the man held here as the supposed murderer of Mrs. Hannah Ross, whose body was found in the ruins of her home. He saw Brooks and declared that he was not the man, although his resemblance to the missing coachman was remarkably strong. Brooks was immediately released.

Letter to Aitcheson Bros.,

Alexandria, Va.

Dear Sirs: "It costs as much to put on poor paint as good"—a common saying and true—it costs much more to put on poor paint; more gallons.

Poor paint is paint and barytes or paint and sand or paint and lime or paint and chalk or paint and benzine or paint and water; these are the usual cheats; there are others.

It takes more gallons of paint-and-a-cheat than of honest paint; and the cost of the labor of painting is so much a gallon—one gallon costs as much as another, for labor.

This is the way to reckon your costs for this year; but how about next year?

Paint Devoe, and next year costs nothing; year after next the same; the same for several years.

Paint anything else, and your costs recur according to what you paint with. Some of the mixtures wear one year; some two; some three.

It costs twice, three times, four times, five times, as much to paint with a cheat as to paint with Devoe. Yours truly,

F W DEVOE & CO

Death of Senator Bate.

Washington, March 9.—Senator William Brimage Bate, of Tennessee, died at the Ebbitt House in this city at six o'clock this morning of pneumonia, which resulted in heart failure. He was 79 years old. Senator Bate, throughout his senatorial career, which began in 1887, has made the Ebbit House his home. He was taken with a cold last Monday, and the attack did not take a serious turn until yesterday morning, when Dr. Sowers was summoned. Death followed quickly. It is believed that Senator Bate contracted his fatal illness on Saturday when as a member of the Senate he was put on the inaugural stand, listening to the address of President Roosevelt. The wind was rather brisk and the air chilly, and before the ceremonies were concluded he went into the rotunda of the Capitol complaining of the cold. He was taken to his bed on Monday and his cold quickly developed into pneumonia.

Mr. Bate was a typical southern gentleman of the old school His unfailing courtesy permitted him to assume such sharp opposition to measures upon the floor as from time to time brought into the public eye men of his ability. But he was influential in shaping legislation, and in committees, especially those of military affairs and territories where he has long served, his counsel had been respectfully sought. As ranking minority member of the committee on territories, he in part conducted the fight in the last session for the admission of New Mexico into separate statehood. He felt keenly the refusal of the House leaders to accept the Senate amendment making such provision and was one of the first Senators opposed to joint statehood to urge submission to the will of the lower branch of Congress so that Oklahoma and Indian Territory could be given joint statehood. One of the last public acts was his unsuccessful intercession to remove the opposition of Senator Morgan to the proposed compromise. He felt the defeat of the measure keenly.

The body will be taken to Tennessee for interment. Senator Bate was attended during his last sickness by his wife.

Hanged Himself.

Brantford, Ont., March 9.—Joseph Kennedy, who was found guilty last night of criminal intimacy with Irene Cole, the nine year old daughter of Peter Cole, and who received a sentence of life imprisonment, and seventy-five lashes hanged himself in the jail this morning. Kennedy, who was an Irishman served in the South African war. He had only been a short time in Brantford, when he was arrested and tried on the charge of causing the death of Irene Cole, who was found murdered and horribly mutilated. Through the perjured evidence of Joseph Drummond, Kennedy was acquitted. Subsequently Drummond was sentenced to three years on the charge of perjury. Kennedy was re arrested but could not be re-tried on the murder charge.

Alarm at Cumberland.

Cumberland, Md., March, 9.—A warm rain which has fallen since yesterday has caused the water in the stream to rise, until much alarm is felt on the part of the lowland residents. The Potomac river above and below here is filled with ice gorges, almost mountain high. They have commenced to move which places the towns and villages east of here in a serious position. Those families living in the extreme places are preparing to move.

Madrid Theatres Closed.

Madrid, March 9.—Because the city ordinance has been broken frequently, the Governor has issued an order that all performances must close before 12:30 o'clock at night. The order has angered the Author's Association which has entered a protest. The members have agreed to withdraw their plays and as a consequence all the theatres are closed.

Poolroom King Indicted.

Chicago, March 9.—The Dupage county grand jury has indicted "Jim" O'Leary, king of western gamblers, and about twenty of his assistant gamblers. O'Leary has been conducting a mammoth poolroom just outside the city limits. Special trains carried 4,000 players to the scene every racing day.

Murderous Assault on a Councilman.

A dispatch from Roanoke, Va., says that Town Councilman Abel Massey, of Bluefield, was attacked on the streets of that town Tuesday night by G. G. Moore, a locomotive engineer, who beat him almost to death with a stout hickory stick. Massey was found in an unconscious condition near his home, and was in a stupor all of yesterday. Moore was arrested and is in jail to await developments. The children of the two men had a quarrel sometime ago, and the trouble Tuesday night was the result. Massey received several ugly gashes on the head and shoulders. After felling Massey Moore is alleged to have told one of his victim's children that Massey was lying in the street dead.

New York Stock Market.

New York, March 9.—New life was given to the stock market by the strong influence of the action of the Bank of England in reducing its rate of discount today. That financial event has been looked for for some time, and several weeks of disappointment had the effect of holding back speculation in all the international centres. Here there was an excited opening and further improvement with an enlargement of business throughout the list. The market became quite excited toward the end of the first hour, but this was checked by liberal profit taking and small recessions have occurred without at all impairing the strong undertone of the market.

Fined for Assault.

Shortly after 12 o'clock last night trouble occurred in front of a public house on Cameron street, during which a man was knocked down. The assailant (proprietor of the house) was taken into custody by Officer Roberts, and this morning was fined $10 in the Police Court. After the case had been disposed of another warrant against the prisoner was produced. It charged him with keeping a disorderly house, and had been sworn out by a neighbor who made a statement to the effect that the noise and general disorder in the place prevented contiguous residents from sleeping until after midnight; also that all day on Sundays men went in and out of the place—entering sober and emerging drunk. It was further alleged that property in the vicinity had detriorated in value by reason of the existence of the eyesore. The accused in his defense said he kept boarders, which accounted for people entering and leaving his premises on Sunday. Justice Caton in summing up the case said he would continue it until a further investigation could be made, and in the meantime the Corporation Court would examine into the matter and determine whether or not a license should be granted the accused in future.

The River.

The river is now clear of ice and navigation has been resumed. Sailing vessels can move up and down as formerly, and all evidences of the late embargo have vanished.

The Norfolk steamer upon her arrival this morning had nothing of interest to report.

The steamer Anne Arundel of the Weems line arrived up this morning from Baltimore and river landings. She encountered ice in coming down the bay and considerable fog on the river. The ice, however, has about disappeared and the steamer had no difficulty in making her landings On and after today the Weems line will maintain a tri-weekly service between Baltimore and river landings.

The steamer Charles Macalester has resumed her trips on the Mount Vernon route.

The steamer Estelle Randall is making regular trips between Washington, Alexandria and Glymont.

The steamer Bartholdi will resume her trips between this city and the Washington navy yard on Saturday next.

Women in a Fight.

A fight occurred yesterday in a house on north Lee street between Cassie Crist and Mamie Gentry, during which the latter used a cuspadore on her antagonist. It seems that the pair became engaged in a quarrel when the Gentry woman struck Cassie Crist. The latter picked up a cuspadore and hurled it with telling effect. It landed on the nose and right eye of her adversary, inflicting serious cuts. The fight then resolved itself into a hair-pulling match which continued until the couple were pulled apart by other inmates of the house. The Gentry woman swore out a warrant against her assailant, and Officer Allen took her in custody. Justice Caton, after the evidence in the case this morning, fined the women $5 each.

The Weather.

The weather was rainy again last night and the temperature mild. There are now but few evidences of the late frigid conditions, the ice having almost disappeared from the river. In certain parts of the city, however, some ice is still to be seen, but it is rapidly passing away. The unpaved streets are in a muddy condition, and some others are in a state which demands immediate attention.

The rain continued to fall this morning, and a cool northeast wind made conditions still more dismal. The Strand was converted into a quagmire, rendering it impossible to reach the wharves without sinking over one's shoe tops in mud.

Charge Dismissed.

Frank Yarato, an Italian, employed in railroad work near Accotink, came here yesterday with a pistol in his pocket, one end of which was protruding. He entered a barber's shop where he attracted the attention of Officer Young who took him in custody. The case came before Justice Caton this morning when the services of an interpretor became necessary. It appeared that the pistol was empty and that Yarato, unable to procure cartridges at Accotink, had come here to obtain them. The accused was dismissed, after the weapon had been turned over to a friend and the party agreeing to leave the city immediately.

Hearing Postponed.

The hearing before the District of Columbia Commissioners of the protest of the people of Alexandria in regard to the construction of the outlet of the sewer system of Washington into the Potomac a short distance above this city, which had been arranged for tomorrow, has been postponed till Friday, the 17th inst. The postponement was on account of the indisposition of Representative Rixey, who is suffering with a severe cold, and also in order to give City Engineer Dunn more time to prepare a report in opposition to the construction of the sewer outlet at the point designated.

Seriously Burned.

Mrs. Daniel Warder was badly burned at her home on Alfred street, between Prince and Duke, last night. Mrs. Warder had a lamp in her hand when the sleeve of her dress took fire. She dropped the lamp and in doing so set fire to her dress, and was seriously burned before the flames were subdued. Dr. Klipstein was summoned and he rendered the necessary surgical aid.

Across the Backyard Fence.

Mrs. Newcome—I never got milk in bottles till I came here, Mrs. Oldsett. How do you skim off the cream?

Mrs. Oldsett—The way we generally do at our house is for the girl to forget it and leave it on the back porch till it freezes. Then the cream sticks out about two inches above the top and she skims it off with a hatchet.—Chicago Tribune.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Frank Yarato, an Italian, arrested by Officer Young charged with carrying a concealed weapon, was dismissed.

Cassie Crist, arrested by Officer Allen charged with assaulting Mamie Gentry, was fined $5, as was also the complainant, as it appeared the latter precipitated the fight.

David Brown, arrested by Officer Henderson charged with being drunk in the street, was fined $2.50, or given 10 days in jail.

A saloon keeper, arrested by Officer Roberts charged with assault, was fined $10. The defendant had also been charged with keeping a disorderly house, but this case was continued.

James Carter, colored, arrested by Officer Bettis charged with defacing the property of Isaac Keith, was dismissed upon a promise to pay the damages.

Nellie Jones, colored, arrested by Officers Bettis and Smith charged with disorderly conduct toward a neighbor, was fined $5.

Douglas Brent, colored, arrested by the same officers charged with leaving a nuisance upon the property of Moses Stevens, was dismissed upon promising to abate the same.

Personal.

Miss Alma Hamersley, daughter of Mr. and Mrs. Wm. E. Hamersley, of this city, and Mr. Wm. Powell, of Washington, were married in the latter city last night.

Miss Nellie M. Paul, of York, Pa., who has been visiting her brother, Mr. Arthur Paul, in this city, has returned to her home.

Mrs. Charles Dailey, who has been visiting friends in this city, has returned to her home in Lynchburg.

Mr. Lewis Nalls, who has been quite sick for some time past, is convalescing.

Mrs. Isaac Eichberg, who has been quite sick, is greatly improved.

LOCAL BREVITIES.

Our cook grew very ill and died.
And when in heaven she looked abou
She said: "I'll stay if you decide
To give me every night and Sunday out."

Roxie Hume, colored, died at her home, 315 north Fayette street, last night.

Brackets of artistic workmanship are being placed at the Prince and St. Asaph street entrances to the postoffice. Gas and electricity will be used in the brackets for illuminating purposes.

The funeral of the late Mrs. Edith Barron, formerly of this city, who died in Washington on Monday, took place this afternoon at 3:30 o'clock from 517 north Patrick street. Rev. Mr. Morton conducted the services.

A slight fire occurred yesterday evening in Mr. H. C. Smith's tailoring establishment, 905 King street. The flames were soon subdued by an extinguisher brought from the Reliance engine house by Driver Allen.

Marriage licenses were issued in Washington yesterday to William H. Pettitt, of Loudoun county, and Catherine Smith, of West Newton, Pa., and to Joseph R. Kines, of Loudoun county, and to Kate M. Shipe, of Fauquier county.

Kuropatkin to be Superseded.

A dispatch from St. Petersburg says after his defeat at Mukden, Gen. Kuropatkin's deposition may be regarded as certain. War Minister Sakharoff is picked as his probable successor, though Grand Duke Nicholas Nicolavitch, or a board of strategists, may be intrusted with the direction of affairs. A strong faction of the army, those high in influence about the Emperor, opposed Gen. Kuropatkin from the first, and, though his early defeats were condoned because it was realized that Gen. Kuropatkin was doing all that man could with the tools at his command, it is now felt that after twice having had the opportunity to show what he could do with a powerful army, and having failed to accomplish victory either time, his removal is advisable. A high military official said Tuesday night that the Emperor had had enough of a general whose interpretation of a victory was a successful retreat; that Fabian tactics are well enough on their way, but that Kuropatkin went beyond those of Fabius, and neglected to take account of favorable opportunity for counter strokes. Friends of Gen. Kuropatkin, however, say that no other general is apt to do as well as he has done, and declare that his removal may mean, as in the American civil war, the exchange of a Hood for a Johnston.

The assignment of O. L. Simpson, a member of the New York Consolidated Stock and Petroleum Exchange, was announced this morning.

Got Off Cheap.

He may well think he has got off cheap, who, after having contracted constipation or indigestion is still able to perfectly restore his health. Nothing will do this but Dr. King's New Life Pills. A quick, pleasant and certain cure for headache, constipation, etc. 25c at E. S. Leadbeater & Sons' drug store; guaranteed.

A Favorite Remedy for Babies.

Its pleasant taste and prompt cures have made Chamberlain's Cough Remedy a favorite with the mothers of small children. It quickly cures their coughs and colds and prevents any danger of pneumonia or other serious consequences. It not only cures croup, but when given as soon as the croupy cough appears will prevent the attack. For sale by Gibson and Timberman and W. F. Creighton & Co.

By the Tonic Route.

The pills that act as a tonic and not as a drastic purge are DeWitt's Little Early Risers. They cure Headache, Constipation, Biliousness, etc. Early Risers are small, easy to take and easy to act—a safe pill. Mack Hamilton, hotel clerk at Valley City, N. D., says: "Two bottle cured me of chronic constipation." Sold by all druggists.

For the Navy Yard.

Fifty-ninth Congress.

Washington, March 9.

SENATE.

The sudden death of Senator Bate, of Tennessee, cast a gloom over the Senate today. After the reading of the journal Senator Gorman said that owing to the absence of Senator Carmack, of Tennessee, he had been charged with the sad duty of announcing the death of Senator Bate. He said this was not the time for eulogy, but he might say that the Tennessee statesman had met the Great Messenger with the same calmness and Christian fortitude with which he had met the vicissitudes of life. Mr. Gorman offered resolutions of regret which were at once adopted. They provide for the appointment of twelve Senators to have charge of the funeral arrangements. The obsequies will take place in the Senate chamber at 2 o'clock tomorrow afternoon and the remains will be taken at 10:45 tomorrow night to Nashville for interment. The services in the Senate will be conducted by Chaplain Hale, Rev. Dr. Green, a Baptist minister, and Rev. Dr. Prettyman, Methodist. The remains will be accompanied to Tennessee by the Senate committee and invitations have been extended to the Representatives of the State of Tennessee to join in the escort. The Senate also adopted a resolution extending an invitation to the President, members of the Supreme Court of the United States, the Diplomatic Corps, such members of the House of Representatives as are in Washington now, the Admiral of the Navy and the Lieutenant General of the Army to attend the funeral exercises. In announcing the names of the Senators who are to constitute the funeral escort, Vice-President Fairbanks was visibly affected and his voice trembled with emotion. The committee as named consists of Senators Carmack, Morgan, Alger, Daniels, Berry, Foraker, Mallory, Spooner, Culberson, Scott, Proctor and Blackburn. As a further mark of respect the Senate then adjourned.

Appeal to President.

A delegation of colored men that called on the President yesterday made the following address to him:

"Mr. President: Judging from the facts already at hand, we believe that a large number of negroes who are fully prepared to meet the qualifications imposed by the revised constitutions of the South, are denied the right to register and vote on account of color and previous condition of servitude, which is in violation of the federal constitution and even the revised constitutions of the South.

"This denial is a great injustice to the colored citizens of the said States. We are of the opinion that the first step to the correction of these great wrongs is the appointment of a commission by Congress to investigate the matter and find out if it is true that citizens entitled to register and vote are denied that privilege and to what extent.

"We have come to request you to recommend in your next message to Congress the appointment of a commission to procure the facts so that Congress may see the necessity of enacting such legislation as will enforce the provisions of the fifteenth amendment to the federal constitution.

"We feel that some means should be provided for the full enforcement of the amendments to the constitution, that all citizens may be equally protected in their rights which these amendments are intended to guarantee."

The President gave the delegation no assurance of carrying out their wishes in the matter.

Big Rudder Shipped.

A diver under the water at Lambert's Point performed a difficult and dangerous marine feat yesterday. He shipped a new steel rudder on the steamer Lewis Lukenbach, of New York, which has aboard 6,000 tons of coal destined for the United States navastation at Cavite, Philippine Islands. The steamer draws some 30 feet of water. The rudder without its stock weighs 6½ tons, and with the stock, which must be bolted to it before it is shipped, perhaps as much more. The diver had to guide the rudder stock through the hole in the band which holds it in place, and was liable to get his limbs crushed between the rudder and the ship when the great guide was put overboard astern or be crushed beneath it, should it slip from the tackle on the derrick. The rudder was successful shipped without accident. The vessel had cleared and will sail at once for her long voyage to the Orient.

COURT OF APPEALS.

The following were yesterday's proceedings of the Supreme Court of Appeals of Virginia:

Chesapeake and Ohio Railway Company vs. Stock & Sons. Fully argued and submitted.

Virginia Passenger and Power Company vs. Fisher and others. Partly argued and continued.

Next cases to be called;

Norfolk and Western Railway Company vs. Cromwell, administrator; Davis's administratrix and others vs. Davis and others, and Wright vs. Agelasto, trustee, being Nos. 59, 60 and 64 on argument docket.

Expenses Double.

Statements were issued yesterday for publication in the Congressional Record by Mr. Hemenway, late chairman of the House committee on appropriations, and by Mr. Livingston, the ranking member of the minority on the same committee, relating to the appropriations by the session of Congress just closed. The statements as to the total appropriations for the session agree, being $818 478,914 for the fiscal year ending June 30, 1906, as against $781,172,375 for the previous year. Mr. Livingston makes a comparison of the four years of the last Cleveland administration and the four years of the administration just closed, showing that in 1893-1896 the appropriations were $2,016,343,753 and during the years 1903-1906 they were $3,153,324,293.

Jointache

is one of the main symptoms of that terrible disease called Rheumatism, which makes life a daily torture to many thousands.

HAMLINS

WIZARD OIL

is a treatment which affords a positive cure for rheumatism and allied diseases.

Applied externally, it relieves the pain at once. Taken internally, it cures permanently by purifying the blood of the lactic acid which causes the disease.

Anthony Smith, of Mayville, Ill., says: "I had such severe rheumatic pains in my arm and shoulder that I could neither work nor sleep and was fast losing all hope of cure, when I heard of and tried Hamlins Wizard Oil, two bottles of which performed a perfect, permanent cure." Price, 50c and $1.

Twelve mats very fine OLD JAVA COFFEE just received by J. C. MILBURN.

Alexandria Gazette.

THURSDAY EVENING, MAR. 9, 1905.

Uprising of the Peasants.

Dispatches from St. Petersburg say that the peasant movement against the landed proprietors of central Russia is growing stronger. Bands of armed peasants are marching through villages and destroying property. They have even entered the town of Penza, where the police force is not sufficent to cope with them. A sensation was caused yesterday by a leading editorial in the Moscow Gazette, the traditional spokesman on the autocracy, pretending that the present revolt in the interior should be put down immediately in the fashion which General Michael Muravieff crushed the Polish Lithuanian rebellion in 1863. "It would be a sad sacrifice of life," says the Gazette, "but a hundred times less now than if the revolt were allowed to continue until it became absolutely necessary to take decisive steps." The liberals are making a great point of the fact that at the very time when Emperor Nicholas is declaring the necessity for a strict observance of the law he has again set the example of disregarding it. According to the law of the empire an imperial manifesto must be read in the Senate, which is the legal body in the promulgation of laws, before its publication in the Official Messenger. By his direct order this formality was omitted in the case of the recent manifesto.

Explosion rocks Church.

An explosion of illuminating gas in the cellar of the Mormon meeting house at Granger, fourteen miles southwest of Salt Lake City, caused the death of one young woman and seriously injured twenty-six other persons, mostly young women and children. The meeting house was wrecked. While the Granger Mutual Improvement Association was in session the lights went out. A boy went into the cellar with a lamp to see what was wrong and the explosion followed. Miss Nellie Mackay, the church organist, was who standing directly over the gas tank, received the full force of the explosion and was instantly killed. A panic ensued among the audience, and, in their efforts to escape from the wrecked building, many who had not been injured by the force of the explosion were trampled upon.

Are You Engaged?

Engaged people should remember, that, after marriage, many quarrels can be avoided by keeping their digestion in good condition with Electric Bitters. S. A. Brown, of Bennettsville, S. C., says: "For years my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." E. S. Leadbeater & Sons, druggists, sells and guarantees them at 50c a bottle.

Pleasant and Harmless.

Don't drug the stomach to cure a cough. One Minute Cough Cure cuts the mucus, draws the inflammation out of the throat, lungs and bronchial tubes, heals and soothes and cures. A quick cure for Croup and Whooping Cough. Sold by all druggists.

Proper Treatment of Pneumonia.

Pneumonia is too dangerous a disease for anyone to attempt to doctor himself, although he may have the proper remedies at hand. A physician should always be called. It should be borne in mind, however, that pneumonia always results from a cold or from an attack of the grip, and by the proper treatment of these diseases a threatened attack of pneumonia may be warded off. There is no question whatever about this, as during the thirty years and more that Chamberlain's Cough Remedy has been used, we have yet to learn of a single case of a cold or attack of the grip having resulted in pneumonia when this remedy was used. It is also used by physicians in the treatment of pneumonia with the best results. Dr. W. J. Smith, of Sanders, Ala., who is also a druggist, says of it: "I have been selling Chamberlain's Cough Remedy and prescribing it in my practice for the past six years. I use it in cases of pneumonia and have always gotten the best results," Sold by Gibson & Timberman and W. F. Creighton & Co.

A Dinner Invitation.

After a hearty meal a dose of Kodol Dyspepsia Cure will prevent an attack of Indigestion. Kodol is a thorough digestant and a guaranteed cure for Indigestion, Dyspepsia, Gas on the Stomach, Sour Risings, Bad Breath and all stomach troubles. N. Watkins, Lesbus, Ky., says: "I can testify to the efficacy of Kodol in the cure of Stomach Trouble. I was afflicted with Stomach Trouble for fifteen years and have taken six bottles of your Kodol Dyspepsia Cure, which has entirely cured me. The six bottles were worth $1,000 to me." Sold by all druggists.

Nothing will cure Indigestion that dosen't digest the food and give the stomach a rest, It isn't necessary to starve yourself in order to rest your stomach—take Kodol Dyspepsia Cure. It will digest any quantity of all the wholesome food you want to eat while your stomach takes a rest—recuperates and grows strong. This wonderful preparation is justly entitled to all of its many remarkable cures. Sold by all druggists.

There is one rational way to treat nasal catarrh: the medicine is applied direct to the affected membrane. The remedy is Ely's Cream Balm. It restores the inflammed tissue to a healthy state without drying all the life out of them and it gives back the lost senses of taste and smell. The sufferer who is tried of vain experiments should use Cream Balm. Druggists sell it for 50 cts. Ely Brothers, 56 Warren street, New York, will mail it.
